### **DETAILED ACTION**

This is the fourth office action for U.S. Application 10/612,220 for a Combination Spring Tension Rod and Mounting Brackets for Window Covering, filed July 2, 2003.

#### ***Claim Rejections - 35 USC § 103***

Claim 25 is rejected under 35 U.S.C. 103(a) as being unpatentable over Schroeder. Schroeder discloses a bracket assembly with a mounting section (1, 4, 5) and a rod interface (2, 6, 7). The mounting section defines a bearing surface (along 1), which faces in a first direction. The rod interface is coupled to the mounting section and faces in a second direction generally opposite the first direction. The rod interface is adapted to connect with one end of the spring tension rod (3). The rod interface is arranged relative to the bearing surface to position the rod interface spaced away from a window opening in a direction generally perpendicular to the first and second directions when the bearing surface is borne against a surface of the window opening. An elbow section (2) is coupled to the mounting section and defines the rod interface. The mounting and elbow sections are separate parts, wherein the mounting section has a male attachment mechanism (4) received in a female receptacle end (near 6) of the elbow section. The elbow section has a first arm and a second arm. Schroeder, however, does not specifically disclose the elbow section as defining an angle greater than 90 degrees. The specific angle of the arms of the elbow is a matter of engineering preference that would have been obvious to one of ordinary skill in the art at the time of the present invention depending on the configuration of part 3 relative to part 1.

***Allowable Subject Matter***

Claims 4, 5, 7-16, 18-21, 23, and 24 are allowed.

***Response to Arguments***

Applicant's arguments with respect to claim 25 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
